PROP 65 COMPLIANT All DON Gloves are 100% DINP-FREE

Effective 12/20/14, California Prop 65 requires all Vinyl & Synthetic Gloves containing Diisononyl Phthalate (or DINP) to have a "Warning" label on the packaging that reads, "This Product Contains a Chemical Known to Cause Cancer". DON Vinyl and synthetic gloves do not have the "Warning" label on the packaging because they are made from an alternate plasticizer called Dioctyl terephthalate (DOTP).
