

New Microban® Black Handle Stainless Steel Tongs

don.com | 800.777.4DON

Don Microban® Tongs

- Microban® antimicrobial agents are built into the handle during the manufacturing process to inhibit the reproduction of bacteria and reduce the risk of cross contamination.
- One piece springless design provides a comfortable grip which will not peel or slip off.
- Scalloped stainless steel ends have an attractive satin finish, ideal for most kitchen applications.
